WHEAT OPENS STRONG;
WEAKENS LATER IN DAY

Close Is Steady, While Trading
Is Small; Little News Af-
fecting Market.

CHICAGO, Dec. 28.—The wheat mar-
ket opened strong, with prices up a shade
to 10c, but failed to maintain the initial
firmness owing to the selling of the
day delivery by a leading elevator in-
terest. The close was steady, with May
at \$1.06 and July at \$1.08 1/2. Trade
in general was small. The bulk of the
start was due to further delay to har-
vesting in Argentina, owing to wet weather
and to the smallness of the world's
shipments for the week. Total ship-
ments of wheat for the past week were
8,045,000 bushels, compared with 8,000,000
bushels the corresponding time a year
ago. Aside from these influences no
newly important factors were reported
to the pit to inspire either buying or sell-
ing, and in consequence the market was
dragging along the greater part of the
day. No export business was reported
and demand for cash wheat was slow.

The feature of trade in the corn mar-
ket was the liquidation of December
holdings by local longs, which caused
general weakness in that option. Other
deliveries were inclined to be firm. The
market closed steady, with prices a little
lower to 1/2c higher, with May at 61c and
July at 61 1/2c.

Trade in oats was very quiet. The
market was quite firm in the early part
of the day but eased off later, ending
steady, with prices a shade higher to 1/2c
lower. Final quotations on May were
58 1/2c and on July, 59c.

Provisions were strong. The close was
1/2c to 1 1/2c higher.
